Put your hand in the hand of **THE MAN!**

The carefree days of summer have left us, and now we are back to the business of living-- for real! For some of us, that means back to work, Some will be starting a new job. It's Back to school for many of us, and Starting college for others. A few of us are even Getting Married! And yet others of us are Facing surgery or dealing with serious illness. Yes, it's life as usual, and all of us tend to think we have to tackle each of these new challenges alone.

Yesterday, I watched a tiny little girl walking with her grandfather. She had her hand in his and went wherever he took her. She was happy as she could possibly be-- without a care in the world as she dodged between cars, up and over barriers. Her life was so simple!

Ours can be, too, if we put our hands in the hand of "the Man!" He will guide us through the traffic of life and up and over the man-made barriers. We need not take all of the burdens upon ourselves. It is so simple. Put your hand in the hand of The Man! Ask for His Guidance, and it will be there. We must pay attention to hear this Guidance, but it truly will be there.

"Ask, and you shall receive. Seek, and you shall find. Knock and it shall be opened unto you."

Put your hand in His. Let Him show the way!
